# JOURNAL OF COMMUNICATIONS SOFTWARE AND SYSTEMS

<http://www.ccis.hr/jcomss>

A Publication of the  
Croatian  
Communications  
and Information  
Society  
in cooperation  
with the  
University of Split,  
FESB, Croatia

Endorsed by the  
Technical  
Committee on  
Communications  
Software of the  
IEEE ComSoc

**J**COMSS invites submission of high quality papers. Journal of Communications Software and Systems (JCOMSS) focuses on high-quality, peer-reviewed papers that advance the state-of-art and applications in communications software engineering and communications systems particularly including new techniques, reports on experiments with analysis of performances, and prototypes. The subjects covered by this journal include all aspects in communications software and systems in wireless communications and multimedia technologies.

Authors wishing to submit papers should send an electronic version (PDF or postscript files ONLY) with a separate cover letter, which contains the paper title, authors with affiliations, and a 200-word abstract. Journal papers should be concisely written and be no longer than 20 double-spaced pages (12-point font, approximately 26 lines per page with 16.5 cm/6.5-inch line length) excluding figures. A prospective author is advised to first submit the paper through the **JCOMSS Management System**. For further details on paper submission and subscription, please visit the JCOMSS web site <http://www.ccis.hr/jcomss>.

JCOMSS is an all-electronic processing journal, published quarterly, offering typically 6 months window for final decision about publishing for well prepared regular papers that are accepted after one round of review. Each additional review round will extend the window for approximately 2-3 months.
